(54) ADJUSTABLE PEDAL-PARALLEL SCREW AND ROD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide an adjustable pedal assembly which is fitted to an automobile, for example, so as to control a brake, a clutch, and/or a throttle during a normal drive and can be adjusted to different positions conforming with the positions of different drivers.

SOLUTION: Various adjustable pedal assemblies 10 can be disclosed; and each assembly has a pedal support body 16 and the pedal support body is equipped with a pedal lever 18 which is supported slidably on a guide rod 12 and fitted to the support body 16. A screw 22 for driving the pedal support body 16 extends from a bracket 14 along the guide rod 12. The adjustable pedal assembly 10 has the screw 22 outside the guide rod 12 in parallel thereto.
